**Name** KNOT SMALL CILINDRO D180 H280

**Type** pendent lamp

**ID** PC1034

**Description** KNOT is a collection of stately pendant lights that appose two dramatically dissimilar materials. The design combines coarse natural fibre with smooth, transparent blown glass to arouse a contrast as striking as it is dignified. Full-bodied globes of varying shapes and sizes are penetrated by robust cords that seemingly pull the bottom of the glass inward for a bemusing plastic effect. The LED light source is housed in a handsome top hood, which, like the cord end cap, is fashioned in refined metal. The collection currently comprises four pendant lights and several colour options. Knot Small expands the Knot collection with smaller versions of each light. The new size comes in response to increasing demand for compact lights suited to smaller interiors and lower ceiling heights.
